The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/529,363	Applicant(s) MANNING, HOWARD JOHN	
	Examiner JILL E. CULLER	Art Unit 2854	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, drawn to an apparatus for transferring substrates to and from a printer comprising first and second storage units which are movable vertically with respect to a platen.

Group II, claim(s) 8-15, 17 and 23, drawn to a method for printing substrates on a platen comprising printing a first substrate, aligning a second substrate with the printhead while reversing the direction of motion of the printhead, and printing the second substrate.

Group III, claim(s) 16, 18-22 and 24-27, drawn to a method for printing substrates on a platen comprising printing a first substrate while simultaneously transferring a further substrate between the platen and a substrate storage unit, aligning the further substrate with the printhead, and printing the further substrate.

Art Unit: 2854

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature of Group I appears to be that the storage units are movable vertically with respect to the platen. This is not required by Groups II and III. The special technical feature of Group II appears to be that the second substrate is aligned with the printhead while reversing the direction of motion of the printhead. This is not required by Groups I and III. The special technical feature of Group III appears to be printing a first substrate while simultaneously transferring a further substrate between the platen and a substrate storage unit. This is not required by Groups I and II.

A telephone call was made to applicant's representative on August 27, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jill E. Culler whose telephone number is (571)272-2159. The examiner can normally be reached on M-F 10:00-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Nguyen can be reached on (571) 272-2258. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
